

# ARTISAN HIVE

CREATIVE LIBERATION

Artisan Hive is a Digital Artisan community. We have a vision to design a hands-on learning environment that can develop the future visionary leaders of Cameroon and Africa. With the skills developed at Artisan Hive, these visionary leaders innovate and develop solutions to the problems they face in their own communities. We call ourselves 'Digital Artisans' as we use digital tools to create local manufacturing and production with a strong focus on local businesses and social impact.

AS DIGITAL ARTISANS WE  
INNOVATE, COLLABORATE,

## GLOBAL TRENDS

CREATIVE LIBERATION  
[www.artisan-hive.com](http://www.artisan-hive.com)

## WHAT IT DOES

### TRAINING

SBL courses include:

- Design Thinking
- Design for Social Impact
- Industrial Design
- Electronics
- Entrepreneurships

### DESIGN SUMMIT

We engage local and international students in design summits that focus on local community problems

### CO-CREATE

Our co-creation community space is the best place to explore ideas and develop solutions with our aspiring entrepreneurs

### DA VENTURE

There are many projects that develop into real ventures with our Digital Artisan program

## APPROACH & IMPACT

At Artisan Hive, skill based learning (SBL) and hands on education is the focal point of our community, providing 25 million youths with the ability to create products and understand design thinking.
